Podium works with RaceCapture to collect high-performance sensor data and video from your car

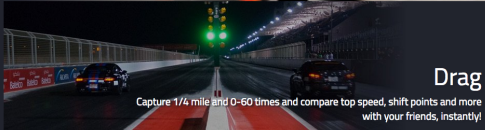

Monitor engine and car performance

View lap times and compare video with data

Analyze, share and compare races with friends

## Autocross

Find those hidden tenths. Instantly review your runs, adjust your setup and win your class!

## Drag

Capture 1/4 mile and 0-60 times and compare top speed, shift points and more with your friends, instantly!

## Road Race

Use predictive lap timing to learn a better line. Stream live telemetry to the pits for real-time race strategy.

## Drift

Got the longest drift? Compare it with your friends. Switch to time attack mode and instantly set up a race!

## Enthusiast

Capture your car club or canyon carving adventures. It's the perfect accessory for any car enthusiast.

## Start Your Engine

Connect RaceCapture

Shave off seconds

Set new records

## Compatible devices
