

SAP MASTER DATA GOVERNANCE

SAP Master Data Governance (MDG)
SAP Information Steward
SAP Data Services

Contact Us

Utopia is SAP's most experienced implementation partner of SAP Master Data Governance. We are also SAP's only development partner for MDG, including the creation of two SAP Solution Extensions by Utopia for [Enterprise Asset Management](#) and [Retail & Fashion Management](#). In the Master Data Governance arena, Utopia focuses solely on helping clients deploy SAP Master Data Governance across Material, Supplier, Customer, Financials, EAM and Retail (Article). SAP MDG ensures data integrity across both SAP and non-SAP systems and is an integrated foundation for optimized business processes leading to higher productivity with trusted data, ensuring consistency and saving time and money.

SAP Master Data Governance Benefits

- Gain a single trusted view of your data.
- Leverage best practices for the creation of logical workflows to ensure the right team members are involved with master data change requests.
- Central creation and maintenance of master data across heterogeneous systems.
- Ensure immediate compliance to corporate data standards.
- Creation of an audit trail for master data changes including when, why, and by whom changes were made.

How Utopia Can Help

- A proven track record: Utopia has done more deployments of MDG globally than any other SAP partner.
- Experienced domain experts (Supply Chain, Material, Asset, Retail, etc) to work with business users on best practices and processes.
- Mature methodologies and offshore capabilities to assist with efficient extraction, cleansing, and loading of data, in addition to implementing the solution itself.
- SAP development partner for MDG, building Solution Extensions for Asset (EAM) and Article (RFM).
- Fastest, smoothest and most packaged approach for MDG deployments, upgrades, and customizations.
