A Sortable, Searchable Listing of UT Dallas Events

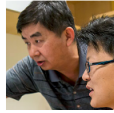

Follow UT Dallas:

RESEARCH

News for and about the people whose discoveries, inventions, designs and scholarly achievements bring UT Dallas toward its goal of becoming one of the nation's best public research universities.

DNA Project Captures New Insights on Diseases

Sept. 25, 2017

A team of scientists from UT Dallas and UT Southwestern has created a new method for understanding the causes of genetic diseases, such as sickle cell anemia and some cancers. [read more](#)

Researchers Investigate Tech's Effect on Journalism

Sept. 21, 2017

Two new studies from the School of Arts, Technology, and Emerging Communication examine different angles on the interaction between journalism and modern technology. [read more](#)

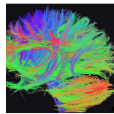

Nonprofit Highlights Child Language Researcher

Sept. 18, 2017

A UT Dallas professor studying how dual-language students learn verbal skills is featured in a video series highlighting programs supported by the AT&T Byron Nelson golf tournament. [read more](#)

Alzheimer's Study Delves into Degraded Brain Connections

Sept. 14, 2017

Researchers at the Center for Vital Longevity found a correlation between the integrity of white matter — the tracts that allow communication between different brain regions — and the ability to calculate finances. [read more](#)

Study of Circular DNA Circles Back to Old Method

Sept. 11, 2017

A 50-year-old lab technique is helping researchers better understand circular DNA, a lesser-known and poorly understood cousin of the linear version commonly associated with life's genetic blueprint. [read more](#)
