Bio-Match™ Restore™ Moisturizing Personal Lubricant

\$1.99-\$19.99

Formulated under the guidance of independent scientific research (<https://goodcleanlove.com/scientific-research/>), patented, Bio-Match™ Restore™ moisturizing personal lubricant mimics the body's natural equilibrium with perfectly calibrated pH levels, salt balance, and the same type of beneficial lactic acid produced by healthy lactobacilli for a truly bio-matched, healthy

lubricating response. Bio-Match™ Restore™ moisturizing personal lubricant is an essential part of a pro-active daily feminine hygiene routine. Restore is a natural vaginal lubricant which may help with vaginal dryness, itching, and odor and promotes health of maintenance of healthy vaginal flora.

I really liked this product and how its natural because it made me feel safer to use it and I did not feel like by using something more natural that is balanced bio ph and also scientifically formulated was anything less than what I regularly would use.

This product work amazing. I will not get into the gritty details but I do recommend buying this product. Once I find out where this brand is sold I will be buying more. It works better than most. I love that it does what it says it does. Like I said I do not wish to get into the gritty details.

January 4, 2016

Considering my thoughts on other products from this company I was concerned about using this, but was pleasantly surprised. It has no scent and felt very light and natural. The thing I liked the most was how smooth and not at all sticky it was. I would recommend!

This wasn't too bad it was effective and it worked well I have no complaints I would use this over my usual brand.

Worked really well and wasnt to sticky or gooy.
