

LENS TINT SIMULATOR

Giro offers a full assortment of performance-engineered polycarbonate lenses in a wide range of lens tints to enhance your vision in conditions ranging from blue bird, to full storm. Every lens filters 100% of harmful UV, and features durable coatings that resist fogging and scratches. Select lens tints include flash mirror coatings that tune light transmission for optimal vision. VIVID Lens Technology is featured on Giro's complete line of premium goggles. With nine models in total, we have Vivid-equipped options for any skier or snowboarder, male or female, from riding groomers to lapping the park to backcountry adventures. Learn more about VIVID [here](#).

S3 FULL SUN
08-18% VLT

VIVID ONYX (14% VLT)
This lens features a silver mirror treatment that enhances contrast while limiting color peaks, providing less eye fatigue and improved reaction time in bright sun.
