CARBONITE

Welcome to Carbonite Safe! Let's get those files backed up.

If your download did not start automatically, please try again.

Follow these steps to install Carbonite Safe.

1. Download the installer file

Press "OK" to download the installer file.

2. Run the installer

Check the upper-right corner of your window. Click on the download arrow and select **Carbonite-Personal-client.app**

3. Allow access

Click "Open" to allow Carbonite to access your computer.

4. Install

Review our Terms of Service and click "Continue". Follow the installer instructions to begin backing up your files.

Need help?
