ESOTERIC DETAILING SERVICES

Detailing has different meanings to different people, which is why at ESOTERIC, we offer a wide variety of proper and professional detailing and customization services to suit your needs. From as simple as a proper and gentle hand wash (yes, there is a big difference in how cars can and should be washed!), to a paint correction detail to remove swirls and bring out gloss, all the way up to a Restorative Detail to bring a car back to like-new condition or better...we offer it all.

ESOTERIC proudly services the discerning needs of the premium and luxury marques: Acura, Aston Martin, Audi, BMW, Bentley, Ferrari, Infiniti, Jaguar, Lamborghini, Lexus, Lotus, Maserati, Mercedes, Porsche, Rolls Royce, Tesla and many others.

Our highly acclaimed paint correction and refinement skills are widely considered in the industry as some of the absolute best anywhere, and our work is followed globally.

AUTO DETAILING TRAINING

Not only are our world-renowned detailing services and product offerings considered some of the most comprehensive and trend setting in the detailing industry, we also offer professional detailing training at our ESOTERIC Elite Detailer Academy!

Professional detailers from around the world make the trip to the ESOTERIC headquarters in New Albany, Ohio to learn the latest and most responsible detailing and paint correction techniques available. We have had students attend from as far away as Australia, New Zealand, Hong Kong, Japan, Taiwan, United Kingdom, Mexico, Bahrain, Argentina, Guatemala, Canada, and of course all over the United States.

So if you're looking to have your vehicle detailed, why not bring it to the same place where professional detailers go to learn?!

And if you're a professional detailer wishing to take your skills and your business to the next level (or two), then attend the ESOTERIC Elite Detailer Academy!

AUTO DETAILING SUPPLIES

ESOTERIC Car Care is our auto detailing supplies division, and through convenient, secure online ordering, you can purchase the latest products from RUPES Polishers, GYEON Quartz Coatings, KAMIKAZE Coatings, Meguiar's, Sonax, Polishangel, and more.

We also have a full retail showroom of all of our detailing products...some of which are not even available on our online store! Whether you're a weekend warrior looking for the most basic washing and drying supplies, all the way up to a professional detailer or body shop, we have a wide selection of the most professional grade detailing products available.

And if you're in the market for RUPES polishers, you can try any and all of them back in our shop before you make your purchase...where else can you do that?!
