BenchSentry is a package security system that doubles as an attractive seating area capable of supporting 250lbs. It is available in two colors and with three options for surveillance camera placement. A locking lid is standard. After your purchase we will contact you to help you configure your BenchSentry.

As an Early Adopter you will have the option to upgrade your BenchSentry to the production model when it becomes available.

We offer a 60 Day Money-Back Guarantee if you are unhappy with the product.

There will be an option to upgrade your box to the production model when it becomes available.

BenchSentry's resin construction provides years of functionality and durability. BenchSentry is water resistant with a stay-dry design to keep your packages safe. Its exterior finish can withstand harsh UV rays and will not fade over time.

A motion-sensing interior light illuminates your delivered packages for easy retrieval even after dark.

## How the BenchSentry Lock Works
