We've been working with some of the biggest and best companies in the United States and around the world since we were founded in 1990. We're committed to providing resources on time, on budget and exceeding performance expectations.

Here's just one example.

We have a 22-year partnership with a major energy company and serve as the single source vendor for its IT staffing needs. We have worked on more than 1,000 staffing requirements for this customer in the last 12 years and more than 45% of those consultants have been on assignment more than two years. In addition, our IT and CFO MSP programs saved that customer more than \$24 million.

How do we do this? Our secret to success is it's all about custom solutions at S<sup>3</sup>. We take the time to truly analyze your needs and help you save you money and improve productivity.

Need staff physically close to you? Or, even on a different time zone? That's why we have 31 branches across the United States and Europe to deliver the right solutions at the right time at the right price. We provide talent where and when you need them. On-site? Off-site? Either way, Strategic Staffing Solutions has it handled.

Join our family by working with us. Each and every client has a dedicated project manager and personnel that make sure your needs are handled from start to finish. You'll have access to decades of experience in a variety of industries, bringing the best practices to work for you.
