Authoritative Information and Analytics

CoreLogic® Case-Shiller Indexes® provide a wide range of housing information and analytics in products focused on property data, collateral valuation, and home price trends and forecasts.

Whether you're determining value for a home equity loan, evaluating risk for an entire loan portfolio, modeling aggregate collateral value in a security, or researching historic real estate valuation trends, our CoreLogic Case-Shiller products can help clarify your task, simplify your challenge and produce results that sharpen your understanding and enhance your results.
