## Questar Drums, Pails and Totes

Questar offers UN rated drums, pails, and totes in many different styles, sizes, and UN ratings. We stock poly, steel, and fiber drums in all of our warehouses. The sizes of the drums range from 15 gallon to 85 gallon. Custom sizes, and larger containers are available upon request. New drums are available in all sizes, and reconditioned drums in the 55 gallon size are available in most markets. Our pails come in poly or steel material, and the sizes range from ½ gallon to 5 gallon. IBC Poly Totes are stocked, and readily available in the 275 Gallon & 330 Gallon size.

Questar's relationship with both the manufacturer of new UN rated drums, and the reconditioners of UN rated drums allows us to access inventory that will meet or exceed your needs. We stock more styles and quantities of UN rated new and reconditioned drums in our Questar-managed warehouses than any other distributor in the industry! If you need five drums, or a truckload, we can make it happen!
