UN Rated Containers

Questar's full line of hazardous and non-hazardous Waste Boxes are constructed of high quality currogation ranging from a triple wall to five wall thickness. The addition of weather resistance adhesive in a 6-8 Millage Liner provides the UN tested strength to hold 2,000-2,850 lbs. of solid hazardous and non-hazardous waste.

Our Cubic Yard Box has the ability to hold the equivalents of four 55 gallon drums of waste. One pallet, (40 units a pallet.), of Cubic Yard Containers will hold the equivalent of 160 drums of waste!
