

CODE BLUE

Code Blue Preparedness - Don't Let Document Loss Devastate Your Business.

When disaster strikes, an immediate response is critical—especially for your documents. Ensure quick and effective remediation by partnering with Polygon to develop a document recovery plan.

Losing valuable documents can bring your business to a halt, yet many companies overlook document recovery when creating a business continuity plan. In an emergency, scrambling to find help can cost you precious time. As a Code Blue® client, you'll already have a top document restoration specialist familiar with your business to recover your documents and keep operations running.

With Polygon as your recovery partner, your business will benefit from unrivaled technical engineering backed by 30 years of document restoration experience. You'll also get priority access to the world's largest drying and climate control fleet. With 26 offices and four document recovery centers throughout North America, we'll be ready to respond instantly wherever you are.

Priority Service

A large-scale disaster can leave hundreds of businesses in your area clamoring for document recovery services. Our Code Blue® program boosts you to the front of the line. You'll get priority access to our expert team and 24/7 emergency response.

Document Disaster Recovery Plan

Paper-based media will begin to degrade within the first 24 hours. By working with you to develop a response protocol ahead of time, we'll show up on the scene ready for immediate action. Your recovery plan will help us quickly identify the best recovery method for each material based on the document value and level of damage.

Cost Reduction

Minimize the financial impact of a disaster with discounts on our state-of-the-art drying equipment, freezer storage, document scanning and
