SAFEDRI SUMP PUMP SYSTEM

Basement Sump Pump System

Only an effective waterproofing system can keep a basement dry. The most important component of that system is a reliable, long-lasting sump pump. The JES family of SafeDri™ Sump Pumps provides options to meet whatever level of waterproofing protection your home requires. JES SafeDri™ Sump Pump Systems are available in several sizes and configurations, depending on if the application is for a basement, crawl space, foundation, or a more serious flooding issue that requires industrial strength support.

Learn to see if JES' SafeDri™ Sump Pump system is the right solution for your basement by scheduling a [free inspection with one of our professional consultants](#).

What Causes Basement Flooding?

There are numerous reasons why your home's basement can flood. A settling foundation, resulting in cracks, bowing walls and other issues are common factors. Other reasons can include clogged footing drains, deteriorated exterior waterproof coatings, poorly pitched landscape and misaligned downspout problems. Whatever the reason the SafeDri™ Sump Pump System can be part of the solution.
