

We are changing the narrative of black millennials in mainstream media.

Blavity is a venture-backed technology and media company aimed at building beautiful products and experiences for black millennials. Founded in July 2014, has quickly grown to become one of the fastest growing digital media outlets on the web, reaching **more than 7M millennials a month**.

Our vision is to economically and creatively support Black millennials across the African diaspora, so they can pursue the work they love, and change the world in the process.

© Blavity Inc. 2018

Blavity is a community of the most exceptional multi-cultural creators and influencers in the world. We partner with diverse content creators and influencers to help them reach a wider audience, amplify their message, and fund their hustles. We believe that the world shifts according to the way people see it. If you change the way people view the world, you can transform it.
