## Brookshire Brothers Express

Convenience is king at Brookshire Brothers Express. Serving our smaller communities, our Express format blends the best of a traditional supermarket with a convenience store. This hybrid approach allows maximum flexibility in tailoring the store to the community.

Most Express stores offer hot delis stocked full with Brookshire Brothers essentials such as fried and rotisserie chicken, hot breakfast and lunch offerings. These favorites along with plentiful produce and fresh baked delicacies provide the staples our shoppers have come to expect. Some stores even have pharmacies that provide vital services to their communities.

At Brookshire Brothers Express, we know our customers and our customers know us. We pride ourselves on providing outstanding products and service in an unbeatable convenience format.
