Environmental stewardship for our clients, and for our world.

Around the world, our local, government, industrial, and commercial clients turn to Jacobs to provide comprehensive environmental planning, assessment, restoration, and prevention services. We have extensive experience with complex and evolving governmental regulations, policies and guidelines. And we are consistently ranked by Engineering News-Record as one of the top firms in environmental-oriented market sectors.

From site assessments and investigation, to the complete range of remedial activities, to decontamination and demolition; Jacobs' environmental scientists, engineers, and technicians have the skills and expertise to perform a wide variety of environmental cleanup work for our clients in the nuclear
