### SKULL SAVER Keep Back Style

Protect firefighters from the hazard of protruding ground ladders ends at the rear of apparatus with the original ladder end cover.

**This style cover has highly reflective KEEP BACK lettering.**

Ground ladder ends that protrude from the rear of the apparatus are often the cause of nasty head bumps. A SkullSaver ground ladder end cover can help reduce injury caused by this type of accident. The thickly padded inner lining and bright yellow outer shell combine to create a safer environment for firefighting personnel.

#### STANDARD FEATURES

- Outer Shell is Waterproof, Mildew Resistant, Rip-Stop Vinyl
- Inner Lining is Mildew Resistant, Water Repellent Heavy Duty 10 oz. Treated Canvas Padding
- Two Velcro Straps Hold SkullSaver in Place
