Seon Path – School Bus Route Operations Software

Easy to implement, easy to use and easy to get results

Looking to increase on-board safety, student accountability, and route efficiency?

Can you capture and publish accurate school bus route maps, stop times and student stop assignments from collected GPS data?

Are you able to produce turn-by-turn directions based on actual school bus routes to ensure map and timing accuracy?

Can you easily print off a list of students assigned to each stop based on RFID data?

Seon Path can help you achieve all of this and more – within days of implementation.

Remove the guesswork from your day-to-day route operations.

- Ensure on-time arrivals with accurate turn-by-turn directions.
- Improve route efficiency with detailed student ridership lists that help identify and eliminate under-utilized stops.
- Reduce parent inquiries with accurate GPS-based reporting of bus arrivals and departures.
- Streamline your operations by viewing and adjusting routes quickly and easily.

Seon Path does not require large project teams, in-depth technical knowledge or exhaustive training. When we say you can start capturing school bus routes easily – we mean it. You can be up and running in days, producing accurate route sheets, stop times and student lists.

It's as easy as 1, 2, 3!

<p>STEP 01</p> <p>DRIVE YOUR ROUTE</p> <p>vMax Live will plot your route on a map</p>	<p>STEP 02</p> <p>VIEW YOUR ROUTE MAP</p> <p>Visualize your actual route on a map. See each stop and duration of stop. Make informed route improvement decisions</p>	<p>STEP 03</p> <p>FINE TUNE AND PUBLISH</p> <p>Drag and drop dots on the map to adjust or go back to Step 1 to create a new route. Print routes, stops and driver directions.</p>
