The Travelpro® Difference

At the heart of **Travelpro®** is a man who knew more about travel than most anyone in the world. A Northwest Airlines 747 pilot, **Bob Plath** had crisscrossed the globe a thousand times over, suitcase in tow. He'd seen, first hand, what happened to luggage over time, and the toll it took on the traveler hauling it. So he created something completely novel. Something that would become the staple of travelers everywhere. A wheeled, carry-on suitcase pulled upright by an extendable handle. **The Original Rollaboard®**. What started as an idea to make Bob's job easier, made the entire world of travel better.

We go it but missing screw

November 12, 2018

So we have to go to store to exchange another one. Besides that, this case is really good, especially the wheels.
