

INTRODUCING ZEAMSTER

The Smarter Way to Accept Payments

Simplifying payments begins with Zeamster

If your company is looking for a more powerful, flexible, and friendly way to receive payments securely, Zeamster is the choice for you.

Virtual Terminal

Swipe a card from any location or run transactions for multiple accounts with one login. Set privileges for each user, issue refunds and more.

Reporting

Quickly run detailed reports at any time or have them emailed to you every night. Filter by user or location. Get instant alerts for every transaction.

Z Vault

Store and protect customer credit card/bank information in our PCI-compliant vault. Manage, automate, and search customer payments with ease.

ACH/EFT

Customer bank transfers are the fastest and most successful way to collect. With Zeamster, you pay lower fees than credit card transactions.

Recurring Payments

Set up recurring and future payments daily, weekly, or monthly. Shift one payment without affecting others. View or print payment schedule.

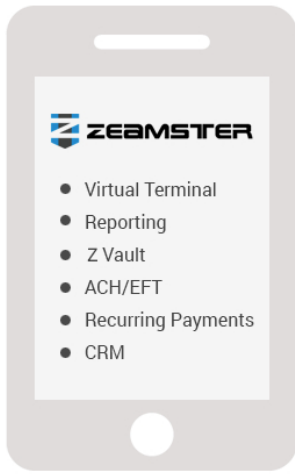

CRM

Manage customer relationships on-the-fly by uploading files, adding notes, or setting visibility access on user profiles.

We can earn more together!

Zeamster is seeking partnerships with qualified applicants as resellers. Earn recurring revenue when you sell Zeamster to businesses. Every time we get paid, so do you.
