

Facebook interface for Mammoth Microbes page. The page features a profile picture of an elephant, navigation tabs (Home, About, Photos, Videos, Events, Posts, Community, Info and Ads, Mammoth Giveaway), and a 'Create a Page' button.

The main content area shows a post from Mammoth Microbes dated November 30 at 4:00 PM. The post text asks: "Do you like to start from seed or with clones? Check out HighTimes's cloning advice if you need some direction with your clones." Below the text is a video thumbnail showing a hand using scissors to cut a cannabis stem. The video is titled "Frequently Asked Questions About Cloning Cannabis" from HIGHTIMES.COM. The video description says: "Raise your cloning confidence by learning the tips and tricks that increase..."

Below the video, there are 17 reactions and 5 comments. The comments are:

- Paul Page** (6d): "Wow . They offer help with clones yet they use a scissor in the picture to squeeze the cell wall together and not get any root production Change the picture if u want us to believe u!! 😂😂😂"
- Michael Sexton** (6d): "No clone zone. Pass the scalp please!"

Below the comments is a text input field: "Write a comment...".

Another post from Mammoth Microbes dated November 28 at 12:00 PM is visible. The text reads: "Meet Karuna! Karuna Chourey is the Director of Plant Microbial Interactions on our R&D team. She has a Masters degree in Plant Sciences and a PhD in Molecular Biology from the University of Mumbai in collaboration with the Bhabha Atomic Research Centre. Karuna is an ardent nature and animal lover with an Indian chai addiction and loves to solve word and picture puzzles. She spends her free time in the garden, reading, cooking, painting, and travel the world with her family. Her friends would describe her as witty, reliable, and a..."
