THE
ECOLOGY
CENTER

ROAD TRIP

The Ecology Center on wheels

Road Trip is our ecological experience equipped with interactive displays, inspiring prep kitchen, hands-on DIY stations, and everything needed to host a community celebration. This 32-foot double-decker bus allows us to provide transformative, solutions-based programming.

Celebrating our pilot season

In the spring of 2018, we traveled across Southern California. We've reached over 4,000 students, in 10 schools across 9 cities, and thousands of others via four community festivals and co-hosted events with our partners. We kicked off the summer with our first Community Table farm dinner in Encinitas, inviting our friends and neighbors to explore Road Trip and enjoy a delicious meal, prepared on board Road Trip.

GROW

Road Trip: Apply for a visit

EAT / GROW

**Transforming spaces
across the region**

Take a look inside.

Equipped with state of the art features, Road Trip takes students and community members on an ecological journey. Activations inside of the bus include DIY stations, an inspiring prep kitchen, and hands-on workshops like pickling, canning, and planting. Those who join us on Road Trip will leave with new skills that will allow them to become more connected with their community and ecosystem.

Our Approach: Hands-on Skills

by Evan Marks
