About Us

Our Mission

Ignition Systems and Controls, Inc. is a professional company dedicated to providing excellence in sales, parts and service of accessory equipment for natural gas engines and gas compression equipment 24 hours a day. Beyond this, we provide our customers with technical expertise and other resources to help them optimize operational efficiencies and achieve environmental compliance objectives. We are focused on our continuing responsibility to our customers, employees, suppliers and stockholders to succeed in our mission.

IGNITION SYSTEMS AND CONTROLS HISTORY

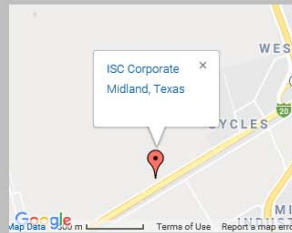

- 2013 – ISC is awarded exclusive distributorship rights for Altronic in Mexico
- 2011 – ISC purchases Taylor Industrial Ignition in Lafayette, LA and is awarded Altronic distribution rights for all of western Louisiana.
- 2007 – ISC is awarded exclusive distributorship rights for Altronic in the Gulf Coast region of Texas.
- 2004 – ISC is operating seven offices providing services in thirteen states ranging from Mexico to Canada.
- 1999 – ISC purchases Rocky Mountain Ignition, the Altronic distributor for seven northern states.
- 1998 – ISC purchases Vaughn and Bush, East Texas region Altronic distributor.
- 1996 – ISC expands to open a full service branch in the Four Corners region.
- 1994 – ISC purchases Hubble Systems, Oklahoma City-based Altronic distributor for the state of Oklahoma.
- 1992 – Due to increasing environmental pressure applied to operators of industrial engines, ISC becomes a full-service environmental service company.
- 1991 – ISC establishes an agreement with Altronic Controls as a distributor for control and safety shutdown panels.
- 1988 – ISC pivots business focus from being a mag shop to a controls company, manufacturing and installing safety shutdown panels.
- 1988 – ISC purchases Advanced Ignition, making ISC the sole Altronic distributor in the Permian Basin.
- 1985 – ISC is awarded an Altronic distributorship for the Permian Basin as a dual arrangement with Advanced Ignition.
- 1981 – ISC starts as a division of CSI and as an Altronic dealer under Advanced Ignition.

Services

Shop Service and Repairs

With over seventy five years of combined service experience in their various fields, our shop service technicians have the expertise you need when your equipment goes down and you need it repaired. The litany of equipment we service and repair includes – but is not limited to – hydraulic governors, starters, catalyst elements, magnetos, ECOM units and all varieties of Altronic systems.

Field Service and Installations

Installations of custom Altronic control and shutdown panels, ignition systems, etc.

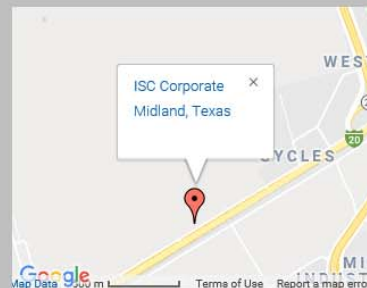

From south Texas to Wyoming, and from eastern Oklahoma to western New Mexico, our highly skilled field service technicians cover a wide swath through the heart of the nation with their expertise. We perform installations of ignition systems, air fuel ratio controllers, annunciators and a variety of other instruments and controllers. We can also troubleshoot your existing equipment to get your system back up and running as quickly as possible.
