Responsible: write perfect emails in Gmail and Outlook

Now included in Boomerang: an assistant that uses artificial intelligence to help you write better, more actionable emails in real-time. Based on data from millions of messages, Responsible makes every email you send more effective:

- Get more responses to your emails
- Always strike the right tone
- Get insight into how you write

Write better emails now:

Boomerang is the leader in email productivity software. Since 2010, Boomerang has helped millions of email users focus on what matters, when it matters. From making sure messages receive responses to revolutionizing how we schedule meetings, thanks to Boomerang, effective digital communication has never been easier.

LABS

Boomerang Calendar
Simple calendar scheduling built into Gmail. Schedule meetings in a single email, highlight dates and times with your free/busy status. Share your availability with one click.
