- Customized Dashboard
- Goal Setting & Tracking Software
- Multi-Location Comparisons
- Live Benchmarking

What Our Customers Say

The Glimpse dashboard and reporting system is so easy and simple. I love how I can instantly get quality information at a push of a button from my iPhone, iPad or desktop computer anywhere. Before I had to depend on my staff to generate over 8 different reports, waste their time to compile the information and then we could finally have a planning meeting. My managers and associate doctors use Glimpse to evaluate exactly what is happening in the practice. They can see production, optical, contact lens, ancillary testing and

- Doctor & Staff Performance Measure

Keep Up With Your Competition SEP 2018

The Average Glimpse Practice:

- A 30:1 return
- Grows by 8.1% in gross revenue
- An increase of \$21.55 for revenue per patient
- Able to Compare their metrics to over 1,000 businesses, live
- Ranks the overall value of Glimpse to their practice as a 9 out of 10

medical procedures all in a simple to see format that is extremely powerful. I especially love the real time comparison data to see how my office stacks up to others. I have told several of my colleagues about Glimpse and they love to too.

~ Dr. Larry Wan

> Custom Consultation

> PMS/EHR Integration

Features

In-Depth Analytics

Recognize growth opportunities and future trends.

Live Accurate Benchmarking

Track results against your peers of like-size at a regional & national level.

Monthly SWOT Reports

Quick reports sent directly to you identifying your strengths, weaknesses, opportunities, and threats to your growth.

Automatic Metric Results

Save time with updated metrics on a daily basis.

Monthly Enhancements

We field requests from our users and implement new features on a monthly-basis free of cost.

Daily Snap Shot

Capture a brief view on how your practice performed yesterday.

Track your Workforce

Measure performance amongst employees to identify who's excelling and who's falling behind.

Custom Consultation

Glimpse guides you in choosing the business management solutions specific to your needs.

PMS/EHR Integration

Glimpse Live integrates with your existing Practice Management System. Your data is pulled nightly into our fully secure cloud data storage using HIPAA requirements.

Customer Support

Glimpse has a 1-hour customer support response commitment. If you have any questions while using our service, we're ready to help!

Glimpse Games

Our practices have fun designing a challenge designed to increase practice revenue in target areas. This process saves you time by having Glimpse track your performance for you and update you on your "score"

Potential Calculator/Missed Opportunity Alerts

Glimpse provides true data analytics to determine your potential revenue opportunities based on your current practice performance compared to our very own Glimpse averages.

Additional Products

Glimpse ID

- Top and Bottom Performing Brand Performance Metrics
- Sales & Profitability of Key Brands
- Manufacturer and Brand Overall Practice Breakdown

Spotlight

Think of the Glimpse Dashboard as your "gym equipment" while Spotlight is your "personal trainer" hired to help you achieve your goals by creating a realistic plan to effectively execute and track your goals along with proper motivation.

About us

Our purpose is to help doctors and organizations succeed by making business analytics simple. We save them time and allow them to focus on patients. We show them where they can improve.

About Us

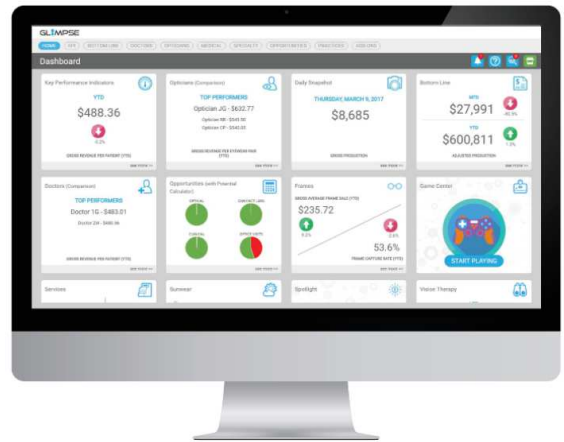

Our task is to ensure that the best healthcare information technologies and practice management tools are integrated and made available.

Glimpse was created by private business owners who wanted to analyze their performance. Understanding that a business owner serves many roles, Glimpse was designed to save time and increase profits by reporting key business opportunities in an easy and intuitive report.

The Glimpse program safely interacts with the owner's database to create a Glimpse report on a daily basis. The Glimpse report enables the owner to instantly track their total business performance while quickly identifying opportunities for improvement and anonymously benchmarked against their peers regionally and nationally.
