

Managed Service Provider (MSP)

We've noticed that something has gotten lost in the mission of what MSP's originally set out to do.

Our mission is to redesign the contingent and permanent healthcare staffing process for the future by bringing efficiency and speed to your staffing and reporting processes so you can get back to focusing on what you do best - providing timely, world-class care to your patients and their families.

Whether you are exploring MSP solutions for the first time, struggling with a VMS technology on your own, or considering changing MSP providers, we can help you where you are.

Speed is only important if the clinicians we place excel in the position and in your culture. Our industry leading technology uses custom candidate matching and connects you to highly qualified nurses in real-time.

- **Customized onboarding** of each clinician by director-level clinical team, including HCAHPS, AIDET and SMART Discharge Training, National Patient Safety Goals, and Proper Disposal of Narcotic and Non-Narcotic medications.

Elite Supplier Partners

We are selective about the hospitals we partner with, because we provide access to the best clinicians across the country. We are committed to operating on the premise of mutual respect for our hospitals, contingent talent, and supplier agencies. Every vendor partner we work with is required to be Joint Commission Certified.
