## Ultimate Wound Kit™

The Ultimate Wound Kit includes everything you need to create highly realistic wounds directly on the skin fast. Ideal for moulage and casualty simulation on actors, standardized patients and mannequins. Also suitable for theatrical and movie make-up applications, and Halloween special effects. This kit contains all the supplies needed to make simulated trauma scars, open wounds, burns, cuts, infections, and more.

Skin Tite® silicone can be applied directly to the skin or onto a training mannequin, or into a plastic plate mold to make silicone wound appliances. Cured Skin Tite® is strong and will bend and flex with natural body movement made by actor's standardized patients.

The Ultimate Wound Kit includes:

- Skin Tite® Silicone
- Thi-Vex® Thickening Agent
- Silc Pig® Pigment
- Rubber Glass®
- Mixing Sticks & Cups
- Step-By-Step How-To Guide

The included step-by-step DVD instructions will guide you through the process.

**About Smooth-On, Inc.**

You may never have heard of us, but you've seen our products at work. If you've ever been to the movies, admired a piece of sculpture, marveled at detailed architectural ornamentation or used a telephone; then you've encountered the handiwork of people who use Smooth-On rubbers, plastics, foams and other products to turn their ideas into 3-dimensional reality.
