Adopting the AWS Cloud can provide you with sustainable business advantages. Supplementing your team with specialized skills and experience can help you achieve those results. The AWS Professional Services organization is a global team of experts that can help you realize your desired business outcomes when using the AWS Cloud. We work together with your team and your chosen member of the AWS Partner Network (APN) to execute your enterprise cloud computing initiatives.

Our team provides assistance through a collection of offerings which help you achieve specific outcomes related to enterprise cloud adoption. We also deliver focused guidance through our global specialty practices, which cover a variety of solutions, technologies, and industries. In addition to working alongside our customers, we share our experience through tech talk webinars, White Papers, and blog posts that are available to anyone. The most recent contributions are listed below.

Customers

Hundreds of the world's leading enterprises and public sector organizations rely on AWS Professional Services to help deliver their cloud initiatives.

McDonald's Corporation transformed into a digital technology company while beating performance targets by up to 66 percent.

Canon has been able to speed up development times, lower costs, provide global reach by using AWS to deliver cloud-based print services.

Philips Healthcare analyzes 15 petabytes of patient data to provide healthcare providers with actionable information.

Siemens is delivering scalable resources to support highly variable lab workloads, providing increased business agility at continuously reduced costs.
