Overview

Class Action Claims Filing Service

Daily Client Reporting

Goal Global Recoveries has an outstanding track record of obtaining compensation; to date we have recovered hundreds of millions of dollars in compensation for our clients.

Our research demonstrates that just over 24% of claims that could be filed by entitled parties are left unprocessed and unrecovered, despite opinion that financial institutions are legally obliged to instigate such claims on behalf of their clients. Historically, non-participation in U.S. securities class actions has cost investors greatly. Over the last 10 years, tens of billions of dollars to which shareholders were entitled was not reclaimed.

We offer a truly global secure service which includes the initial alert notification, loss calculations, completion and submission of the relevant claim documentation and subsequent collection of the compensation monies.
