Our History

In 1967, ten employees of the Office Products Division of IBM founded the IBM Austin Employees Federal Credit Union. From humble beginnings and collecting deposits in a brief case, we have continued to grow for the past fifty years into a community leader. In 2006 we changed our name to Amplify Credit Union and opened our membership to anyone who lives, works, worships, or goes to school in Bastrop, Caldwell, Hays, Travis and Williamson counties. You also qualify for membership if someone in your family (spouse, child, sibling, parent, grandparent, grandchild, stepparent, stepchild, stepsibling, or adoptive relationship) is currently a member.

To be a leader within the Central Texas community, contributing to the sustainability of the region and creating a meaningful and positive social impact.

Our Impact

We strive to be a leader within the Central Texas community, contributing to the sustainability of the region and creating a meaningful and positive social impact.

Ask any Amplify employee why they love working here, and invariably they'll tell you an amazing story about helping to change someone's life. Nothing compares to refinancing a loan at a lower rate and saving a member hundreds of dollars a month, or helping a member understand their finances so they are finally able to manage their money and get out of debt.
