

The Orsini Way

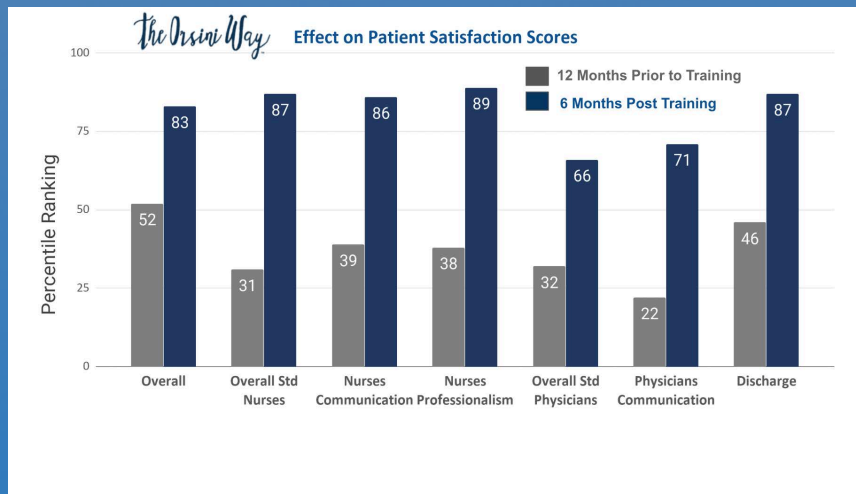

With the It's All in the Delivery® program hospitals have reported a 60% increase in overall patient satisfaction scores.

Anthony Orsini, DO-Board Certified Neonatologist and Founder of The Orsini Way.

Our program is proven to dramatically improve the patient experience by transforming your healthcare culture with compelling, practical and powerful compassionate communication methods. It's All in the Delivery® hosts interactive workshops for your staff, experiential role-playing, and an innovative digital learning experience that scales and reinforces positive communication habits.

It's innovative, it's based on real-world healthcare professional experience, and **it works.**

"The training program designed and administered by Dr. Orsini, has significantly improved the way our physicians, nurses and team members communicate with our families. The ability to measure this improvement using Press Ganey scores, allows us to link staff improvements to financial performance."

— Jose Perez, MD, Corporate Medical Director, Mednax, Department of Neonatology, Winnie Palmer Hospital for Women and Babies, Orlando, FL
