Water Fountain Installation

Need a water fountain installed in your office? No problem! Let us install it for you and make sure that all the pieces and parts are set up to ensure a high level of safety and quality.

Regular Cleansing of Your Drinking Water Fountain

It is essential to keep your office drinking water fountains clean. Keep employees safe and eliminate the threat of contaminants by keeping your fountains clean and sanitized.

Office Water Fountain Inspections

To assure proper operations and increased longevity, your office drinking water fountain should be serviced every six months. Distillata will inspect the water lines, drains, filters and all internal and external parts of the unit to keep your water fountain operating efficiently.

Office Drinking Water Fountain Repair

Distillata performs onsite repairs on all major brands of office drinking water fountains. Our knowledgeable team is trained to address a variety of issues and will have your fountain up and running in no time.

Water fill stations are available and can be retrofitted to existing systems or a dual installation can be scheduled for new set ups
