## WE'RE ON A MISSION

At Decathlon, we're on a mission to democratize access to growth-stage capital.

We believe that current funding models are inherently misaligned with the interests of business owners and that too few companies are able to access the growth funding they need to reach their full potential.

As the country's largest revenue-based funding investor, Decathlon is transforming the way established businesses fund their growth.

By offering companies a dramatically better solution to their funding needs, Decathlon's flexible, revenue-based financing solutions provide a lower-cost, more company-friendly approach to supporting a businesses' expansion.

Our team is comprised of former entrepreneurs, venture capitalists, and senior operating executives who have all experienced the challenges of financing growth-oriented businesses up-close.

With a fundamentally different approach to funding growth-stage companies, we're committed to providing revenue-based capital solutions that allow a business owner to stay in control and keep the value they create.
