

# Dr.UGraft™ Corrects For Punch Mis-alignment

Advanced Follicular Unit Extraction hair transplant devices for better patient results.

Discover Dr.UGraft™

Product Dr.UGraft™

MADE IN THE USA

## What is Dr.UGraft™ and Why It Matters

Dr.UGraft™ is a revolutionary hair transplant system designed to meet the physician halfway. Follicular unit extraction is a notoriously laborious procedure that requires a great deal of skill.

With Dr.UGraft™, this procedure is simplified through the use of smart tools such as The Intelligent Punch (Dr.UPunch i™) and integrated fluid irrigation systems.

### Intelligent Punch (Dr.UPunch i™)

The revolutionary Dr.UGraft™ System features the Intelligent Punch (Dr.UPunch i™) which meets the physician halfway in order to simplify the hair transplant surgery process for both the physician and the patient.

A LOOK INSIDE

## Dr.UGraft™ in Action

Watch as patented texturing combined with a flared tip and gradual luminal expansion results in the Intelligent Punch (Dr.UPunch i) seen above. Hands-free graft rescue made possible with combined use with Dr.UGraft™ Revolution Console.

## Why Dr.U

### BENEFITS

UGraft features are designed to overcome the limitations of previous generation FUE hair transplant punches. Learn how they benefit both patients and doctors.

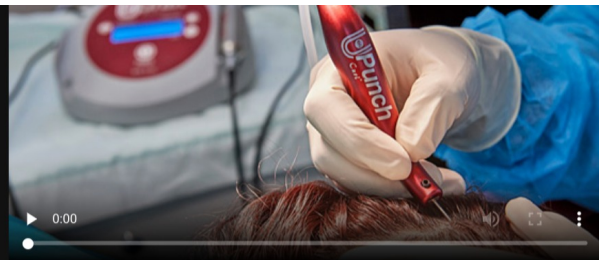

- 1. Allows impossible hair transplant cases to become possible

### VIDEO: DR.UGRAFT REVOLUTION SYSTEM VERSATILITY

Thanks to Dr.UGraft™ technology, these hair transplant patients can now live happy normal lives with renewed confidence in their appearance. Watch this video to learn more about their stories.

- 2. Exceeds performance goals for regular hair transplant cases
- 3. Improves yield by producing more robust grafts
- 4. Enables Better Wound Healing results due to the wound configuration produced.
- 5. Excludes the need to remove stuck grafts, making the procedure relatively faster.
