AVMA Council on Education

Council on Education

"Through the accreditation process the AVMA Council on Education is fully dedicated to protecting the rights of the students, assisting the schools/colleges to improve veterinary medical education, and assuring the public that accredited programs provide a quality education. "

— Accreditation Policies and Procedures of the AVMA Council on Education

The AVMA Council on Education (COE) accredits DVM or equivalent educational programs. The AVMA COE assures that minimum standards in veterinary medical education are met by all AVMA-accredited colleges of veterinary medicine, and that students enrolled in those colleges receive an education which will prepare them for entry-level positions in the profession.
