## STUDENTS WE SERVE

We embrace *all* students, and have special aptitude working with those who:

- Require an individualized approach to learning
- Are not realizing their potential
- Are falling behind or are at risk of passing
- Are experiencing anxiety
- Are experiencing expectation-oriented stress
- Are disenfranchised from learning or succeeding at school because they feel different from their peers for any reason, including being too smart (it's more common than you think)
- Identify as LGBTQ
- Feel marginalized for any reason

We empathize with kids who struggle to learn and/or succeed. Our approach is gentle and inclusive.
