

SKILLS FOR SUCCESS

Skills and perspective coaching.

WHY ARE SKILLS AND PERSPECTIVE SO IMPORTANT?

Often a student's ability to fully engage and/or learn is limited by skills or perspective unrelated to subject matter. We regularly coach kids on skills and perspective in our subject matter tutoring sessions, as needed, but also offer full sessions focused just on skills and/or perspective. For some kids, this is more important than subject matter tutoring.

WHAT WE TEACH

SKILLS

- Effective studying
- Developing focus
- Planning
- Organization
- Developing productive processes
- Time management

PERSPECTIVE

- Keeping the big picture in mind
- Managing stress
- Managing expectations
- Managing test anxiety
- Engaging and doing your best, even if you're different from the others
