What students are saying about Raptor

The sticker price vs. your net price was a feature that I had never seen before. There is no doubt that this website is one of the best ways for students to find a college that will be affordable and perfect for their career.

- Safe & Secure**
We take security very seriously and encrypt all of your information to keep it safe
- Trusted Information**
Schools can't pay to improve their rankings or matches on College Raptor, so you can trust that information you receive is fair and as accurate as possible
- Privacy Guaranteed**
We will never provide personally identifiable information about you to colleges or anyone else without your permission
- Completely Free**
College Raptor is 100% free to use, with no stipulations or exceptions

About College Raptor

College Raptor is more than just a college planning tool. It's a whole new way to make smarter decisions about college. We are the only site that offers side-by-side comparisons of estimated financial aid packages along with simplified campus match scores and admission chances.

With Raptor, students and families have the power to make the best decisions. Not only can they find the schools that best fit their academic and career goals, but they can find the institutions that are most affordable, reduce their need for student debt and create a plan for maximizing their chances of getting in and receiving the most aid.

College Raptor is like a cheat sheet for making smarter, more affordable college choices.

College Raptor Team

Bill
President and CEO, Co-Founder
Bill is an information technology entrepreneur with over 20 years experience starting and growing data-based companies. After multiple successful ventures in financial services, online commerce, and manufacturing, he focused his efforts on using data to solve challenges facing higher education. Bill has five kids and a foster daughter, with four in college. He first started working on Raptor as a way to help his children compare colleges.

Scott
Co-Founder
Scott is a technology expert with extensive experience designing and building technology systems. He has served in VP and Chief Technology Officer roles at multiple international companies, leading development teams for more than two decades. He's a father of two, also going through the college search process.
