It's Rewarding

13 Royalty Types

We'll pay you up to 13 different royalty streams. We'll look for royalties in places you've never thought of. We'll compare your publishing royalty reports to your distribution sales reports, double checking to ensure you're getting the royalties in the territories you deserve.

Again...

Societies don't just immediately start paying you cash. You'll need to invest time in researching to even know where to look and to dig for royalties.

It's Simple

You didn't become a musician to be an expert in copyright and foreign exchange. Let us do the heavy lifting so you can get back to writing.

With over 1 billion unique users each month, YouTube has become one of the leading providers for music discovery around the world. This presents a great opportunity for you to make revenue from your music like never before while also ensuring that your copyrights and songs are protected. (Available to Distribution Clients)
