About TikTok

TikTok is the world's leading destination for short-form mobile videos. Our mission is to capture and present the world's creativity, knowledge, and moments that matter in everyday life. TikTok empowers everyone to be a creator directly from their smartphones, and is committed to building a community by encouraging users to share their passion and creative expression through their videos. TikTok has offices in Beijing, Berlin, Jakarta, London, Los Angeles, Moscow, Mumbai, Sao Paulo, Seoul, Shanghai, Singapore, and Tokyo. In 2018, TikTok was one of the most downloaded apps in the world. TikTok is available worldwide for iOS and Android.

Home Using TikTok Difference between Public and Private Videos

Difference between Public and Private Videos

In TikTok, videos are divided into two categories:

- **Public video:** Public videos are uploaded to our server and will not be deleted even after you uninstall the app. They can be viewed by other users as long as you set the account as public under the app settings. If you set your account as private, only your fans can view your public videos.
- **Private video:** To ensure your privacy, private videos can only be viewed by yourself even they are uploaded to our server. You can [set videos to private](#) or public anytime.
