

Meet Stella,

the world's first AI assistant for autism.

Stella was created for parents, by parents.

Stella was created for parents, by parents.

Focused Community

Stella offers parents a safe and informative community lead by parent mentors and autism specialists.

Provider Network

Stella connects parents with experienced clinicians, service providers, and resources that support families living with autism.

Treatment Tracking

Stella provides parents with a dedicated mobile app to help create, manage and track their child's personalized treatment plan.

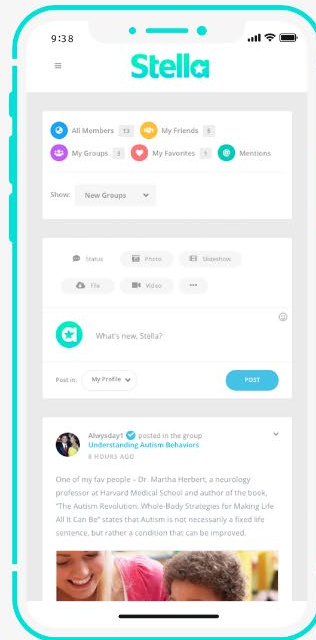

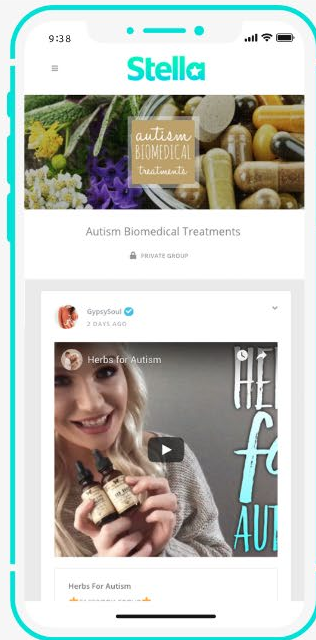

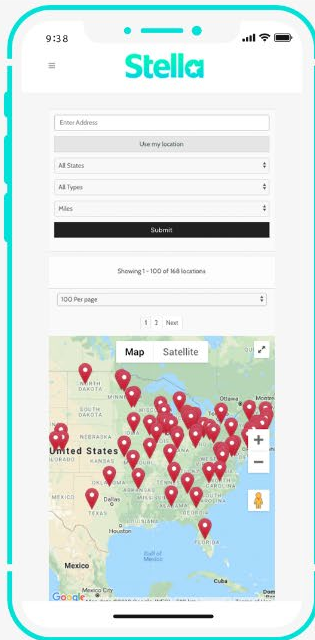

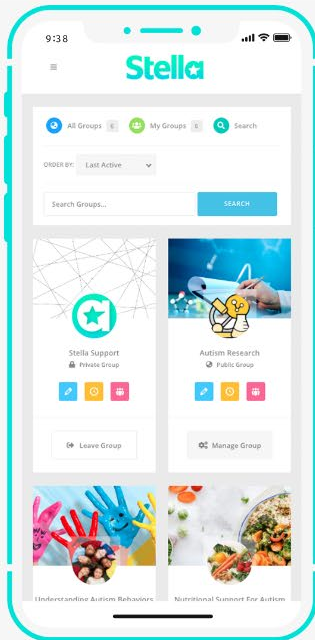

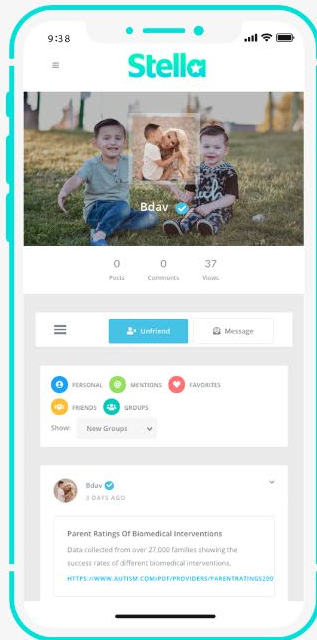

Virtual Assistant

Stella serves as a virtual assistant providing hands free treatment tracking, info and reminders to ease the process of caregiving.

Join the Stella Community

and get access to the following features & benefits

- **Certified Parent Mentors**
Get support from certified parent mentors who are experienced in autism treatment protocols.
- **Focused Community Groups**
Join focused community groups designed to inform and support parents on an array of different intervention options.
- **Service Provider Directory**
Gain access to over 150 experienced and available autism focused clinicians and service providers.
- **Supplement Dispensary**
The Stella dispensary provides access to over 1500 high quality supplements at up to 30% off market value.
- **Comfort, Privacy & Security**
Providing a safe and supportive environment for parents to feel comfortable asking questions and supporting one other.
