

artIculate ATL

is an **urban art social** that combines various elements of the **visual arts** - **painting, graffiti, graphic design, fashion, body painting, sculpture, photography and installations** - with contemporary **music** to bring art and culture enthusiasts together for a common purpose - to celebrate modern art in all its forms.

The Mission of **ARTiculate ATLanta** is to promote and market the various forms of traditional and modern **artistic expression** inherent in our culture.

We aim to promote and showcase quality, inspirational, relevant and **culturally significant art and music** through innovative and professional business endeavors. Our events intend to connect **artist to artist**, creating a network that will spur creativity, expand their visions and strengthen the art community. **The show benefits local, emerging artists and arts programming in Atlanta.**
