MUSIC SOMMELIERS FOR EXPERIENTIAL BRANDS

### **MORE THAN A FEELING**

The profound effects of music are beginning to be understood scientifically. Countless studies have demonstrated that music can arouse senses, alter moods, sway hearts, and change minds. According to neuroscience, emotion plays the most essential role in decision-making.

### **TURN UP THE HEART**

With a mission to elevate the human experience, we help clients filter through noises in the competitive global marketplace, and distill the right music to touch the heart of their audience.

## How we do it right

### METHODOLOGICALLY ATTUNED

We bring observation, intelligence, intuition and sensitivity into music strategy and curation. Each bespoke program is continually fine-tuned to mutable nuances of the brand, audience, culture, space, and time of day.

### LOGISTICALLY SOUND

From licensing, programming, granular configuration to at-scale delivery, we manage and streamline administrative and technical logistics. Plus, 24/7 technical support to keep the right music play uninterrupted, day in day out, anywhere in the world.
