CONTROL THE SOUND
OF YOUR BUSINESS
MAJOR TOM

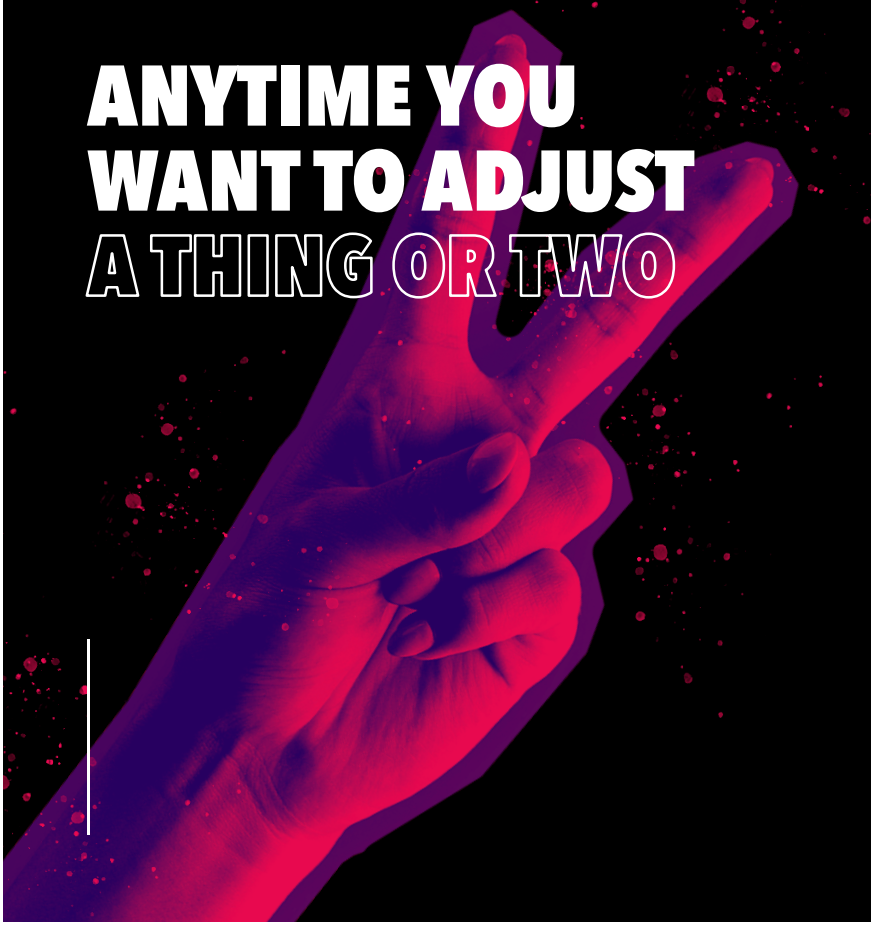
FROM THE CONVENIENCE OF YOUR MOBILE

FOR FINE-TUNING THE PERFECT GUEST EXPERIENCE

MOBILEapp is your remote control for all RX Music media played in your space.

Underneath its mobile simplicity is a full range of control over the orchestra of RX Music technologies at play.

ANYTIME YOU WANT TO ADJUST A THING OR TWO



THIS APP COMES IN HANDY, LIKE A DJ RESPONSIVE TO EVERY TAP OF YOUR FINGER

- View and modify playlists
- View, re-order or skip songs
- Search music by playlist, genre, artist or title
- Adjust volume levels
- Toggle between zones to control area-specific ambiance
- Manage users, devices, and settings
- Revel in your peace of mind, and all that jazz

YOUR COMMAND ON DEMAND

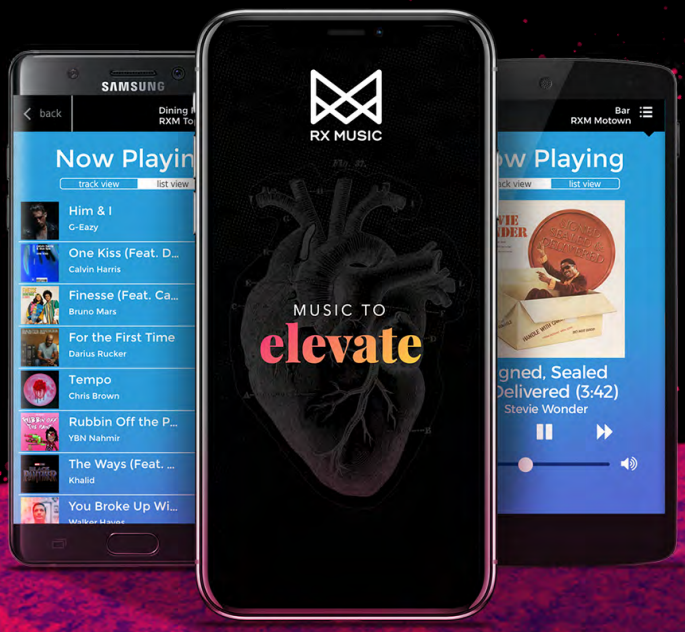
QUICK SETUP

1. Connect your mobile device to the same WiFi network as your RX Music device(s)
2. Download the app from App Store (iOS) or Play Store (Android)
3. Open MOBILEapp
4. Select the RX Music device(s) to control
5. Fine-tune to your heart's content

Download on the App Store

ANDROID APP ON Google play

ROCK LIKE A ROLLING STONE



YOUR SETUP
OUR ASSISTANCE

**FOR YOUR PEACE OF MIND,
A DESIGNATED RX MUSIC SUPPORT
TECHNICIAN WILL ASSIST WITH
SETTING EVERYTHING UP**

SETUP REQUIREMENTS

- **Minimum one RX Music device**
  - MUSICbox
  - VIDEObox
- **Minimum one mobile device**
  - Apple iOS 7.1 or later
  - Android 4.2 or later
- **WiFi router with internet**

MOBILEapp communicates with RX Music device(s) through WiFi. This means all devices need to connect to the same WiFi network, and stay within range.

If your mobile device can access the internet, but not any RX Music device(s), you may be online through a mobile network instead of your WiFi network. If this is the case, simply re-connect your device to your WiFi network. It may be as simple as stepping closer to the WiFi signal range.

When the MUSICbox or VIDEObox is connected directly to a wireless router.

When the MUSICbox or VIDEObox is connected to the internet through WiFi, there must be a reliable connection and strong signal.

When the MUSICbox or VIDEObox is connected to a separate network from the mobile device, the network must be accessible through port 80.
