Our new and improved Engine Flush kit is a necessity for any Marine engines. Our Tablets are designed to extend the life of your engine. As well as prevent **Corrosion** on engine parts, Remove Salt and Mineral Deposits and most importantly protect your investment. Blue Thru's high quality dispenser allows you to easily hook up to any water hose. Within 4-5 minutes of you attaching your dispenser to your engine. The water will have turned clear and your engine flush is complete!
