

your mobility toolbox.

We understand that technology powers your business. Do more with tools developed specifically for our busy corporate clients. We think global mobility should be a seamless process. Here, you can find the tools to manage all of the details, create reports, and even get helpful insights into your corporate relocation.

AiresMobilityXSM Web Services for corporate clients

The hub of your mobility program is MobilityXSM Web Services. Log in to this secure portal to view your dashboard and access extensive, real-time data and both standard and customized reports about each individual relocation, as well as your overall program. Stay up to date on every critical detail, from move status updates to expense submissions to key policy information.

ComposerSM

Composer helps you create a customized relocation policy, offer letter, or letter of assignment based on an a-la-carte selection of benefits on the authorization form. These documents can then easily be shared with your transferees and incorporated into your online authorization form.

ForecasterSM

Stay tuned in to your budgetary forecast. This cutting-edge cost estimate technology allows you to determine the estimated cost of each transferee's relocation based on real-time pricing data.

TheWireSM

Have an idea or a question to share? Post it to an open forum and get feedback from your peers. You can also find ideas and solutions from our Pulse Surveys, white papers, and other [insights](#) shared by our supportive Consulting Services team.

FreeStyleSM

With FreeStyle, your reporting capabilities are virtually limitless. We store detailed relocation information, providing you with flexible and customized reports and information.
