

Contract Manufacturing/Private Label

## Contract Manufacturing/Private Label

While we are known for creating some of the best performing lubricants on and off this planet for various OEMs we also contract manufacture and package greases for many other lubricant companies. We can use your formulation or custom formulate to meet your needs. We have designed our plant with the customer in mind. We know that not all companies cannot afford to purchase 6-12 months inventory at once, so we focus on the medium to smaller batch sizes to help with inventory carrying costs. For more information please contact a sales associate to learn more.
