## At the heart of getting medicines to those who need them.

Parexel is in the business of improving the world's health. We do this by providing a suite of biopharmaceutical services that help clients across the globe transform scientific discoveries into new treatments. From clinical trials to regulatory, consulting, and market access, our therapeutic, technical, and functional ability is underpinned by a deep conviction in what we do.

Headquartered near Boston, Massachusetts and supporting clients in more than 100 countries, our almost 20,000 employees are united by one simple fact. We care. We're not just the people with brains, we're the people with heart.

## Our Values

### Patients first

We fight for patients because they're at the heart of everything we do.

### Quality

Each detail matters, from the smallest to the largest. Our hearts go into them all.

### Respect

People, process, patients, progress. We hold them all close to our hearts.

### Empowerment and accountability

We follow our hearts to do the right thing. Then, we have the courage to own the outcome.
