## Hand Sanitizer 'Alcohol-Free' Re-moisturizing Cream Kills 99.99% of Germs Persistently

Hand Sanitizer "Alcohol-Free" Re-Moisturizing Cream Using benzalkonium chloride to kill 99.99% of Germs Persistently. The FDA stated that BZK is approved for a leave on Healthcare antiseptic and consumer hand rub (hand sanitizer). This makes it the only alternative to alcohol hand sanitizers that strips the skin of natural moisturizers. Re-moisturizes using Sunflower & Shea butter, 14 Botanicals and Succulents along with Vitamins A, D, & E. Fragrance and Paraben Free.

## I.C. Hand Cream

---

A pre-gloving “Paraben Free” moisturizing hand cream formulated for the Bio Science, Medical, Pharmaceutical, and Food Processing Environments. Formulated with Dimethicone which temporarily acts as a Skin Protectant against harmful Pathogens & Stimuli. This cream relieves chapping, skin flaking, and skin sensitivity caused by Alcohol Sanitizers, washing your hands, and/or wearing Nitrile, Vinyl, and Latex Gloves. Because of its gliding properties it can be used on patients for Massage Therapy.
